

PRODUCT FEATURE:

Path Finder

Path Finder is extremely flexible and allows you to run paths in a variety of ways.

- You to a person or organization
- Another person to a person or organization
- An organization to another organization

- 1 Hover over the red, orange and yellow lines to see connection details.
- 2 Click the **filter, sort and group** options to see paths that matter most to you and get you the exact results you want.
- 3 Hover over the arrow extending up towards the organization. This represents the person's strength and influence to the organization.
