

PRODUCT FEATURE:

Power Search

Use Power Search to generate a target list of individuals or organizations that fit your specific criteria. You can narrow down your search results using filters that include industry, interests, work history, education, donations, location, relevant keywords, as well as many others.

- 1 Run searches using filters that will narrow down your search results.
- 2 Apply filters to your search results using the **My Relationships** and **Extended Relationships** tabs.
- 3 Sort by various attributes to acquire better results.
